

Events at LaunchBox Collective

At LaunchBox Collective, we aim to create a seamless experience from planning to day-of execution.

All event inquiries begin with a tour and consultation to ensure that we can advise you of the optimal space(s) and pricing that is conducive for the size and function of your event. Each event quote is custom built based on the information we glean from this initial meeting.

Once a quote is created, and you have made payment(s) towards it, your event is considered fully reserved and we move on to an in-person design session to map out the area(s) that you are booking so that we know exactly where things will be set up.

Please keep in mind that most of our event prices include use of any of our furnishings and decor on-site and that we will have those items ready and set up for you prior to your arrival on event day.

Main Event Space
